LINCOLN, NEB., Dec. 11.—In today's issue of *The Commonwealth* Mr. Bryan demands information regarding the Panama Canal charges.

Unique Style Pens the Little Daily an Appreciation.

IT DESIRES TO FURTHER EFFORT.

The Daily News has received and read with unforgotten interest and satisfaction a characteristically unique appreciation by Commodore C. G. Burgoyne. While a strictly private communication, in unconventional, off-hand style, the Editor believes he is in violation of no good form and that Commodore Burgoyne will require no apology for the Editor's use of his letter in this connection.

Daily News readers will recognize in its merits sufficient justification for its insertion:

The Waldorf-Astoria, New York, December 8, 1898.

Dear Sirs:

They whose palms have once been tarred with printers' ink never again have clean hands. Mine are as black as the first day they came in contact with the stick and rule. My love for the printer and my admiration for his art does not grow less as the shadows of the years grow shorter. Once stained with ink, never again clean. The man that publishes a clean paper—clean typographically and clean in its treatment of the news—is sure of a cozy corner in paradise, where, in the final analysis, all "good" printers go. Maybe it is because of the ink that still adheres to my fingers that I feel impelled to tell you that the first number of The Daily News, which you so kindly sent me, is a credit to any community. To me the make-up is a typographical joy.

It is not only the appearance of The News that is commendable. Mr. Demaree's "In Reminiscent Mood" is an exceedingly well written tribute to friends and neighbors who have entered into that long sleep which, at the expiration of ten thousand times ten thousand years has not yet begun. Only one who loves his fellow man could have penned so graceful a poem. I salute Mr. Demaree! My felicitations to The Daily News! Long may you prosper.

Was Made to Touch Off Beach Street.

YOU CANNOT BE TOO CAREFUL.

What might have proved to be a general and disastrous conflagration was averted last night by the timely arrival on the scene of Night Policeman Ben Tinkham. In the early hours of the morning he saw ominous looking columns of smoke rising from the rear of the Fletcher curio store, and upon investigation discovered that a pile of boxes, dangerously close to the building, were on fire.

For some time, within the fire limits, a general trash pile has been allowed to smoulder and blaze in turns, in the rear of the stores on Beach street between Orange and Volusia avenues. About 2 o'clock Friday morning a slight gust of wind, or else some treacherous hand, carried burning pieces of paper from this heap of embers to a place in the rear of the Fletcher store. It did not take long for a blaze to spread to other boxes, and had not the watchman arrived just at the time he did and thrown the boxes over the fence into the vacant lot near by a fire of distressing consequences would in all probability have been the result.

The proximity of wooden buildings in this row of business houses would have made it difficult to check the spread of the flames and thousands of dollars' worth of goods and buildings would have gone up in smoke.

Those who fire trash heaps should do so in the early part of the day and see to it that no smouldering embers are left at nightfall. With a none too efficient fire-fighting apparatus, it behooves everybody to exercise the utmost caution as preventative measures.

A small fleet of boats from Boston, the Betty S. and two auxiliaries, arrived in Daytona Wednesday afternoon about three o'clock, anchoring at the Halifax River Yacht Club. While coming in the channel by the South bridge the Betty S. ran aground, and some little difficulty was encountered getting her off, she being on the bar over thirty minutes.

The Betty S. is owned by Edward Stackpole, of Lexington, Mass., and was built in Boothbay Harbor, Me., this fall, being built for use in southern waters. The boat is a new type.

The Betty S. was shipped to Savannah by boat and from there the trip was made via Fernandina, Darien, Brunswick and Jacksonville. The yacht will lay here until tomorrow morning, when the cruise south will be resumed, returning north in the spring to go on the St. Johns and tributaries.

DAYTONA BEACH, Dec. 10—Rev. C. E. Parsons, H. Q. Hawley, V. C. Grant and J. L. Wilcox returned from DeLand last night.

There was general rejoicing this morning when it became known that Rev. Parsons had been acquitted from any complicity in the house-breaking which took place on the peninsula last summer.

No one believed that the reverend gentleman was a party in guilt, but some thought he was innocently drawn into shielding others. And the report that he had brought suit for alleged defamation of character for \$20,000 against Elmer Oliver and N. E. Hunt was much discussed.

Mrs. Albert Todd is putting more than a thousand dollars in improvements on her home property on Seabreeze avenue.

The Fuqua brothers are in charge of the work, which consists of outside painting and inside alterations and decorations, also the basement walls have been rebuilt of concrete, work on which is still in progress.

Mrs. Todd's home is one of the uniquely attractive cottages on the peninsula.

Dr. Garfield, a well known resident of one of Boston's suburbs and who with his wife and son are spending the winter here, has recently purchased a lot on North Hollywood avenue, property of C. L. Horn, on which he will build a resident cottage.

L. Z. Burdick has been awarded the contract.

Mrs. John Hendrix, of Lexington, Ky., will spend the winter here, guest of her cousin, Mrs. J. L. Wilcox.

John Dear was the most successful fisherman on the pier yesterday, landing a 20-pound bass.

Mrs. Walters, wife of W. P. Walters, barber at the Williamson block, arrived from Worcester, Mass., last night.

Mr. and Mrs. Livingston, who are occupying the west apartments in the Van Velsah block, are expecting a party of friends from the north this week.

Today's arrivals at the Seaside Inn include C. A. Miles, Jacksonville; Dr. S. L. Laswell, Alma, Ill.; Thos. W. Durst, Syracuse, N. Y.

The Wild Bear.

The wild bear is a most courageous animal. The element of luck counts for a great deal in pig sticking, as in most other forms of sport, and it often happens that the foremost sportsman who by dint of hard riding or thanks to the fastest horse has come up with the quarry is deprived of the coveted honor of "first spear" by a sudden "jink" or turn of the pig.

The bear, in spite of his clumsy appearance, is not only possessed of a great turn of speed, but is extraordinarily active. He will turn and twist like a hare, putting every obstacle in the shape of bushes, rocks, water, etc., between himself and his pursuers, but all the time making for the nearest patch of jungle and safety.

The pace after pig is faster than the best of runs with hounds, but is slower over—illustrated Sporting and Dramatic News.

There is much satisfaction in the fact that the art of painting is not a dead end, but a living one. It is a profession that is always in demand, and it is a profession that is always growing.

DAYTONA BEACH, Dec. 10—Rev. C. E. Parsons, H. Q. Hawley, V. C. Grant and J. L. Wilcox returned from DeLand last night.

There was general rejoicing this morning when it became known that Rev. Parsons had been acquitted from any complicity in the house-breaking which took place on the peninsula last summer.

No one believed that the reverend gentleman was a party in guilt, but some thought he was innocently drawn into shielding others. And the report that he had brought suit for alleged defamation of character for \$20,000 against Elmer Oliver and N. E. Hunt was much discussed.

Mrs. Albert Todd is putting more than a thousand dollars in improvements on her home property on Seabreeze avenue.

The Fuqua brothers are in charge of the work, which consists of outside painting and inside alterations and decorations, also the basement walls have been rebuilt of concrete, work on which is still in progress.

Mrs. Todd's home is one of the uniquely attractive cottages on the peninsula.

Dr. Garfield, a well known resident of one of Boston's suburbs and who with his wife and son are spending the winter here, has recently purchased a lot on North Hollywood avenue, property of C. L. Horn, on which he will build a resident cottage.

L. Z. Burdick has been awarded the contract.

Mrs. John Hendrix, of Lexington, Ky., will spend the winter here, guest of her cousin, Mrs. J. L. Wilcox.

John Dear was the most successful fisherman on the pier yesterday, landing a 20-pound bass.

Mrs. Walters, wife of W. P. Walters, barber at the Williamson block, arrived from Worcester, Mass., last night.

Mr. and Mrs. Livingston, who are occupying the west apartments in the Van Velsah block, are expecting a party of friends from the north this week.

Today's arrivals at the Seaside Inn include C. A. Miles, Jacksonville; Dr. S. L. Laswell, Alma, Ill.; Thos. W. Durst, Syracuse, N. Y.

The Wild Bear.

The wild bear is a most courageous animal. The element of luck counts for a great deal in pig sticking, as in most other forms of sport, and it often happens that the foremost sportsman who by dint of hard riding or thanks to the fastest horse has come up with the quarry is deprived of the coveted honor of "first spear" by a sudden "jink" or turn of the pig.

The bear, in spite of his clumsy appearance, is not only possessed of a great turn of speed, but is extraordinarily active. He will turn and twist like a hare, putting every obstacle in the shape of bushes, rocks, water, etc., between himself and his pursuers, but all the time making for the nearest patch of jungle and safety.

The pace after pig is faster than the best of runs with hounds, but is slower over—illustrated Sporting and Dramatic News.

Why Not Be an Artist?

 is preparing to erect a cottage on his
 Valley street property at Seabreeze.

"Have you seen the modern cook-
 ing wonder at the Gruber-Morris
 Hardware Co's store? Come in any
 day this week."

The Charles Gilman residence, on
 Ridgewood avenue, at Blake, was
 recently entered by thieves, who
 ransacked the house, and carried off
 several rings belonging to Mrs. Gil-
 man.

J. Wesley Johnson, of South
 Beach street, has bought Mrs. C. A.
 Ellenwood's horse for use on the
 farm which he recently purchased in
 the hammock land south of the
 city.

The carpenters completed the re-
 pair work on the railroad passenger
 depot platforms Wednesday and
 the painters are now brightening up
 the place with a much needed coat
 of paint.

J. W. Reese, of Second avenue,
 took a party from Daytona Beach on
 a duck hunting expedition to the
 lagoon Thursday in his launch,
 starting in the early morning hours.
 They expected to return this after-
 noon.

The Bennett.
 Miss Helen Cushman, of Philadelphia,
 is at The Bennett, preparatory to occu-
 pying her cottage on Ridgewood avenue,
 opposite The Bennett. Miss Cushman
 has received a warm welcome from her
 many friends in Daytona. The Bennett
 seems a magnet for honeymoon parties.
 Mr. and Mrs. C. W. Kappert, of
 Dubuque, Iowa, are enjoying their
 bridal trip, having just come up from
 Palm Beach. Fishing parties absorb
 every attention at The Bennett. C. A.
 Horn and B. A. Hutton, of Holyoke,
 Mass., try their luck daily together with
 Mr. C. Rich, of Buffalo, N. Y. So far
 no phenomenal strings have been
 brought in but some interesting fish
 stories have been told. Preparations
 for Christmas festivities are already
 being made. Mrs. H. B. Houston, a
 very gracious special leader, has charge
 of some unique decorative effects.

Which Foot Walks Faster?
 You may think this a very silly ques-
 tion to ask, but it isn't. It is a simple,
 demonstrable fact, which you can
 prove to your own satisfaction in a
 very few minutes. If you will take a
 pavement that is clear, so that there
 will be no interference, and walk brisk-
 ly in the center, you will find that be-
 fore you have gone fifty yards you
 have veered very much to one side.
 You must not make any effort, of
 course, to keep in the center, but if you
 will think of something and endeavor
 to walk naturally you cannot keep a
 direct line. The explanation of this lies
 in the propensity of one foot to walk
 faster than the other, or one leg takes a
 longer stride than the other, causing
 one to walk to one side. You can try
 an experiment in this way by placing
 two sticks about eight feet apart, then
 stand off about sixty feet, blindfold
 yourself and endeavor to walk between
 them. You will find it almost impos-
 sible.
